September 11-13, 2019
LeCroy Center
Dallas County Community College District
9596 Walnut Street
Dallas, TX 75243

Registration details on second page.

***Don't waste another
minute of your time or dollar of your budget
in bogged down meetings!***

The slow pace of decision-making costs your college time, money, and resources. Does your college have issues that never get resolved; projects that miss completion deadlines; or strategies that languish? [Compression Planning®](#) is a 7-step visual planning process what will ignite your group's energy and thinking to rapidly resolve difficult issues. It has a measurable and proven track record. Institutions using Compression Planning® see increases in resources, break-downs of silos, and project completions. When every dollar counts, don't waste staff and time in unproductive planning meetings.

Turn your planning into

- Successful grant development and fundraising
- Fruitful public/private partnerships
- Increased enrollment
- Added workforce contracts
- Dynamic special events
- New academic programs

Discover

- How [Sinclair Community College](#), OH, developed grant proposals 30% faster than others, and raised over \$162 million (by the time Neil retired, that number was \$165 million); and achieved a 40 to 1 return on investment (a 20 year average: for every \$1 the grants office spent, they returned \$40 in grant awards).
- How Beaver County Community College transformed itself by creating a framework to address thorny issues in a positive, productive manner.
